In response to efforts of The Springs Country Club, including its HOA Board of Directors, to seemingly downplay, defend, discredit or deny any of the outrageous events of their February 17 meeting:

It defies our sensibilities that in this day and age there could be committed this “faggot”-yelling, gay-bashing hate crime and mob attack, initiated by a Board member’s unprovoked shoving of the victim, with several fellow club residents thereafter beating and kicking a seriously injured victim, known to Board members to be epileptic with low blood platelets, who was not fighting back, while a gun-brandishing security guard held the victim’s innocent aide (hired to help victim in the event of a seizure) at gunpoint in another room instead of going to the mob to peel people off the victim, all during what should have been a civil HOA meeting in what one would expect to be a safe environment at The Springs.

There will be no further comment during my client’s hospitalization.
